EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul Juettner and Laura Wanek on 5/14/10.

The application has been amended as follows:

Replace claim 32 with the following:

32. A prefabricated composite wall panel for the exterior wall of a structure, comprising:
- a single concrete slab having an exterior face configured to be exposed to the ambient exterior of the structure and an interior face configured for the interior of the structure;
 - a plurality of spaced apart C-shaped, metal frame members having a web, a first flange continuous with and projecting orthogonally from one end of said web, and a second flange continuous with and projecting orthogonally from a second end of said web, said first flange being fully embedded in said concrete slab, said one end of said web being embedded in said slab and said web projecting from said interior face of said slab, and said second flange being non-embedded in concrete and spaced apart from the interior surface of said concrete slab; and
 - a metal lathe reinforcing layer mechanically fastened to said first flange of at least one of said frame members and being fully embedded in said concrete slab;

Art Unit: 3635

wherein said concrete slab has a density of 960 to 1360 kg/m³ (60 to 85 pcf) and a strength from 3.45 to 20.07 kPa (500 to 3000 psi) and includes entrained air that lowers the thermal conductivity of the slab and forms a thermal barrier between said metal frame members and the ambient exterior of the structure.

Claim 37, line 1:

Delete [1] and replace with 32

Cancel claim 38

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose, in combination, a wall panel having a single concrete slab with a plurality of C shaped frame members, the members having a web between first and second orthogonal flanges wherein the first flange is fully embedded in the slab, one end of the web is embedded in the slab, the second flange is not embedded and spaced from the interior face of the slab, a reinforcing layer comprising a metal lath mechanically attached to the first flange and the slab has a density between 60-85 pcf and a strength of 500-3000 psi. The combination of the claimed slab in these ranges and the embedded structure, as claimed is not obvious. The applicant's affidavit of 12/16/09 is convincing in that this combination is not obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3635

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to BASIL KATCHEVES whose telephone number is (571)272-6846. The examiner can normally be reached on 8:00am - 4:30pm.
